

2009-2010 Ross A. Nielsen PLS/NUHS Student Fee Support Criteria

- Any family may apply for PLS/NUHS Student Fee Support
- Applications are due August 14, 2009
- PLS/NUHS Student Fee Support awards will be awarded on or before August 21, 2009

The PLS/NUHS Student Fee Support Selection Committee will review the applications and sort them according to the following three categories:

- Highest need category (for example-free lunch)
- Moderate need category (for example-reduced lunch)
- Lowest need category with added pertinent information related to special circumstances

The applications will then be weighted with the following formula for calculating the awards:

- Number of students in highest need category x 3 =
- Number of students in moderate need category x 2 =
- Number of students in lowest need and special circumstances category x 1=
- The results will be added to obtain the weighted number of students (W).
- The total weighted number of students will be divided into the total RAN PLS/NUHS Student Fee Support amount to determine the weighted shares.

For each student calculate the student fee support award as follows:

- Highest need category 3 x S
- Moderate need category 2 x S
- Lowest need/special circumstances category 1 x S
